To whom it may concern

As a business owner I simply did not have the time to organise my mortgages. I needed a mortgage broker who was upfront, professional and educated. I definitely found that at Maverick Financial.

It was obvious from our first meeting that they were very well informed. They listened to what I needed and then delivered several suggestions on how to best approach the situation. Their knowledge of Bank process and requirements turned out to be priceless.

The service the staff offered was fantastic and they are very much of the mold, “under promise and over deliver”.

All in all Maverick Financial is a truly professional operation and I would certainly recommend their services.
